

## Design Themes

Over the years we have had numerous themes for mazes all over the country. This is an ever growing list, and it is possible that some topics are unlisted. If so, just ask. We may have a design for it!

Also, keep in mind some designs may only work for medium to large plots of land. Together, we can create the perfect design for you. We hope these themes spark inspiration for you as you move forward in the maze design process. Click here to go to maze designs on [www.mazeplay.com](http://www.mazeplay.com)
